“Fast Track” ground-up construction of a 150,000 square foot retail warehouse project. This was a single-story, freestanding building constructed of structural steel, bar joists, metal decking, pre-cast concrete, and 25’ ceiling heights. This facility includes a high bay refrigerator & freezer area, pharmacy, full-service kitchen & bakery, snack & grill cafe, customer service center, and shipping / receiving docks. Extensive sitework for a Gas Station was also included.
