

COSTCO WHOLESALE

Lake-in-the-Hills, Illinois

ARCHITECT: Mulvanny G2 Architects
Bellevue, WA

OWNER: Costco Companies
Issaquah, WA

SERVICES PROVIDED: General Contractor

LOCATION: Lake in the Hills, Illinois

New Construction of a 136,886 square foot warehouse. Building construction began in December and continued through the winter. Precast walls with integral color were combined with masonry wainscoting and metal/block features to create a new look for Costco. Costco's traditional pre-manufactured metal building with standing seam roof was utilized. The building includes a Food Court, Meat preparation area, Bakery, Freezer and Cooler. Full Optical, Photo Processing, Pharmacy and Tire Center are included. The 16 acre site was also fully developed through the winter. A two acre gas station was also constructed.
