Chicago, Illinois

OWNER: Barnes & Noble

New York, New York

SERVICES PROVIDED: General Contractor

LOCATION: Old Orchard Shopping Center

Skokie, Illinois

“Fast-track” transformation of what formerly was a 2-level furniture store into an elegant, open and spacious retail setting. The project included removing 4,000 square feet of floor slab to create an atrium. Two escalators and three stairways connect the main level to the lower level. High-end millwork, electrical fixtures and finishes provide a rich look to the 46,000 square foot interior space. The exterior of masonry and synthetic plaster, with custom wood entry doors, millwork and glazing complement the fine interior.
