

CARMAX

Glencoe, Illinois

ARCHITECT: Pieper / O'Brien / Herr
Alpharetta, GA

OWNER: IDI Corporation
Atlanta, GA

SERVICES PROVIDED: General Contractor

LOCATION: Glencoe, Illinois

This new 18,638 square foot automobile showroom on a six-acre site was constructed on land that formerly housed an incinerator for the Village of Glencoe. For years, the residue from the waste that past through the incinerator was spilled upon the land surrounding it.

The contaminants covered approximately half of the site. The remaining portion of the site was a wetland. Excess soil was moved offsite and the remaining contaminants were sealed under the asphalt paving and carwash, while the showroom was constructed on the clean portion. This project was delivered on time.
