

TARGET

Chicago, Illinois

ARCHITECT: RSP Architects
Minneapolis, MN

OWNER: Target Corporation
Minneapolis, MN

SERVICES PROVIDED: General Contractor

LOCATION: Addison Mall
Chicago, Illinois

A new 2-story 190,000 SF Retail Store, complete with a pedestrian connecting bridge to a new 3 story, 398 stall, 200,000 SF parking structure. The construction took place in an existing and busy Addison Mall on an extremely tight site. The store features Target's New Store Prototype Layout, with 2 passenger elevators, and 2 escalators that allow you to meet your cart on the 2nd floor.

The project consists of partial demolition of existing Wards Store down to the steel skeleton and adding an additional 25,000 SF to the building's footprint. Site work includes the widening of Sacramento Blvd, new signal light, site utilities, paving , and landscaping.
